Dear Soil Scientist,

We are pleased to invite you to submit an article for a new Special Issue of Agro Sur Journal on:

**“Sustainable Management of Volcanic Ash Soils”**

**Agro Sur** is an open access scientific journal, without article publication charges (APC), published annually in three issues by the Faculty of Agricultural Sciences, Universidad Austral de Chile. It covers a wide range of subjects related to Agricultural Sciences, such as Crops (production and protection), Grass and Forage, Agroforestry, Animal Science, Soil Science, Food Science, Agricultural Engineering, Sustainable Agriculture, Agrarian Economy and Rural Development.

More information is available in our website: <http://agrosur-journal.cl>

In this 2019, our new Special Issue, which is supported by the Research Center on Volcanic Ash Soil (**CISVo**), aims to make a contribution in order to better understand the particular properties of Volcanic Ash Soils and their changes due to soil management in a climate change scenario. For this reason, contributions derived from research studies conducted abroad and related to the following topics are invited:

- Mineralogy, Genesis and Development of Volcanic Ash Soils (Section A)
- Critical Values for Soil Quality Assessment of Volcanic Ash Soils (Section B)
- Degradation and Resilience of Volcanic Ash Soils (Section C)
- Sustainable Agriculture and Forestry on Volcanic Ash Soils (Section D)

We welcome contributions as: a) Research Papers, b) Short Communications, c) Points of View, d) Reviews. The new Authors Instructions of Agro Sur will be ready at the end of March. However, the 2015 version can be used and is attached to this invitation.

All submitted articles will be peer-reviewed by two or more reviewers and the submission deadline of manuscripts for our special issue is **September 15<sup>th</sup>, 2019**.

The list of Guest Editors can be found after this letter.

Please do not hesitate to contact us if you have any inquiry about the Journal or the Special Issue.

All the best,

Centro de Investigación  
en Suelos Volcánicos
